

Fitment Instruction: Amarok facelift extended sports bar

Visual / Graphic Illustration

FIG 1.1

FIG 1.2

Step #

Description/Method

Step 1.1

Place The base plate in the front corner of the bin, so that the holes in the base plate are on the bin side(as shown in fig 1.1). It would be a good idea to clamp the base plate down, so it does not move for the next step. Repeat to other side of vehicle

Step 1.2

Once the base plate is clamped, you will need to mark the locations that you will need to drill FIG 1.2. You must mark the bin using the centre of the holes on the base plates. Repeat to other side of vehicle

Step 1.3

Centre punch the centre of the mark you made in the previous step to keep it accurate. Once centre punched drill the holes to the sizes specified FIG 1.2. Repeat to other side of vehicle

Step 1.4

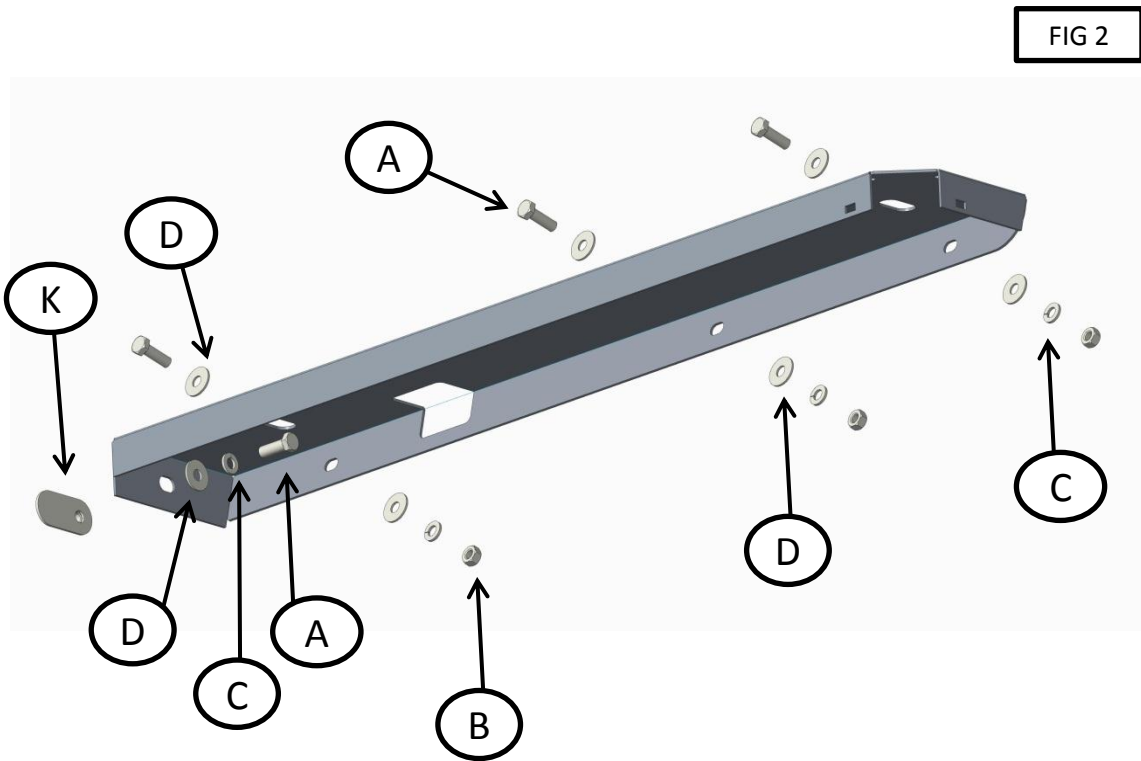

Apply tectyl on the drilled holes. Repeat to other side of vehicle
