Top
mounting
bracket

Bottom bracket marked (D) for
drivers side.

Supplied
nuts and
bolts kit

Fitment Instruction: Isuzu Fleet Nudge Bar

Visual / Graphic Illustration

Step #

Description/Method

1

Carefully Remove the front bumper.

2

You will be using the chassis located behind the cross brace. Shown by the arrows in pic1 for step 2.

Pic 2

Pic 3

Pic 4

2.1

This step is fitting the drivers side top brackets. Locate the chassis shown in Pic 2. You will see an indentation, using a U-bolt position it to look like Pic3. Using the kit, loosely mount the top bracket to the outside of the chassis.

Do the same to the passenger side

Kit used per bracket

1	U-bolt
2	M10 flat washers
2	M10 Spring washers
2	M10 Hex nuts
1	Top bracket

Tighten the u-bolts to 30Nm
using the torque wrench

Pic 7

Step #

Description/Method

3

Using the masking tape wrap the top left and right corners of the bumper up (shown in pic7). This is to protect it from possible scratches when replacing the bumper.

Carefully place the bumper back on the vehicle.
