

Fitment Instruction: Ford Ecosport Facelift Nudge

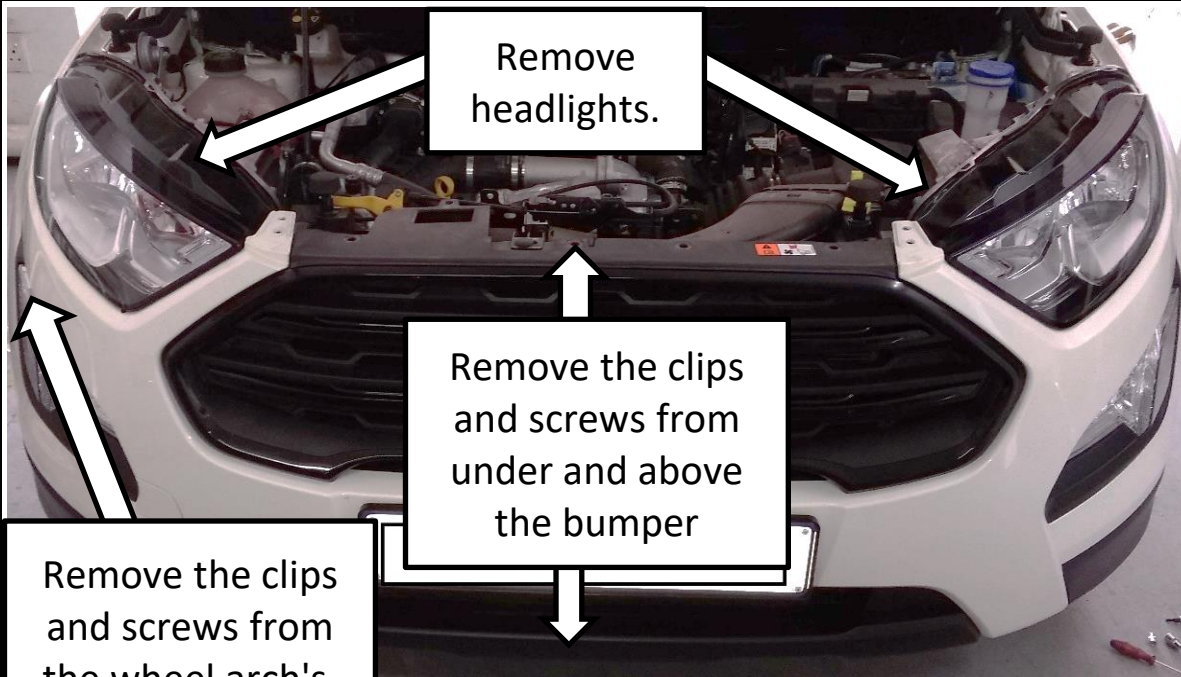

Visual / Graphic Illustration

Step #

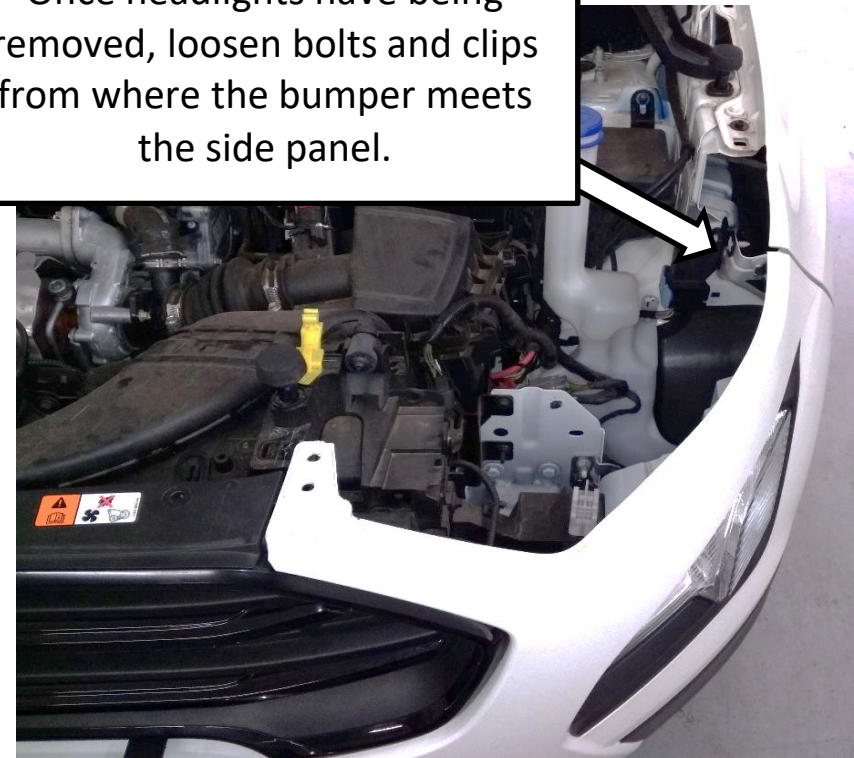

Description/Method

1

You will need to remove the front bumper as well as the headlights to fit the nudge bar.

Once headlights have being removed, loosen bolts and clips from where the bumper meets the side panel.

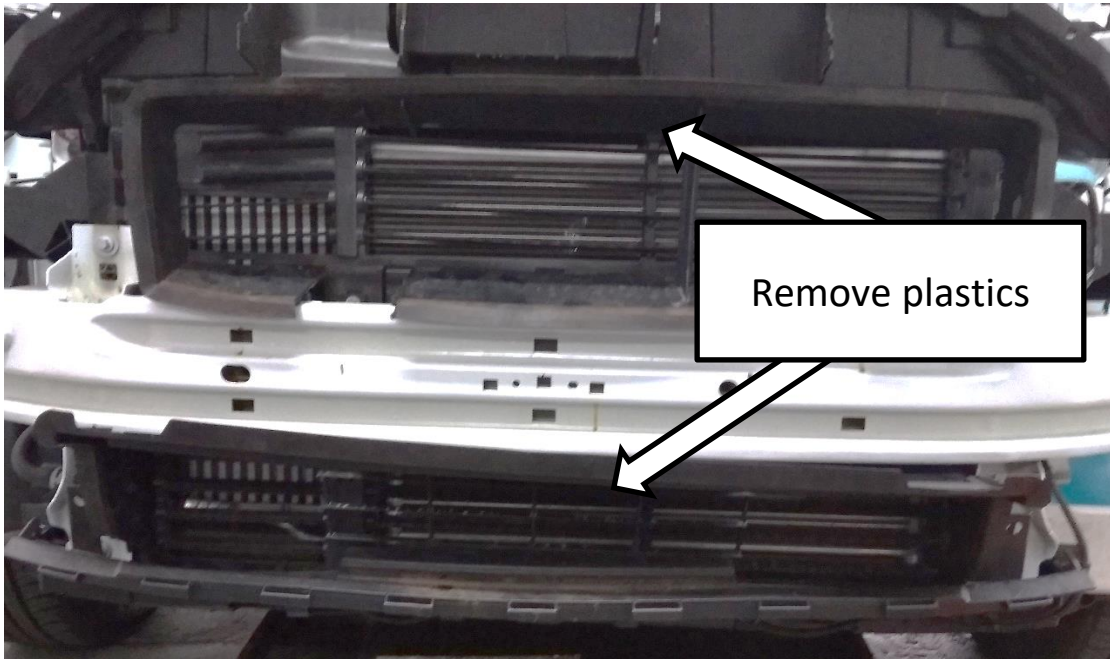

Remove the clips and screws from the wheel arch's.

Remove the clips and screws from under and above the bumper

Be careful when removing the bumper. Make sure all clips and fasteners have being removed .

Step #

Description/Method

2

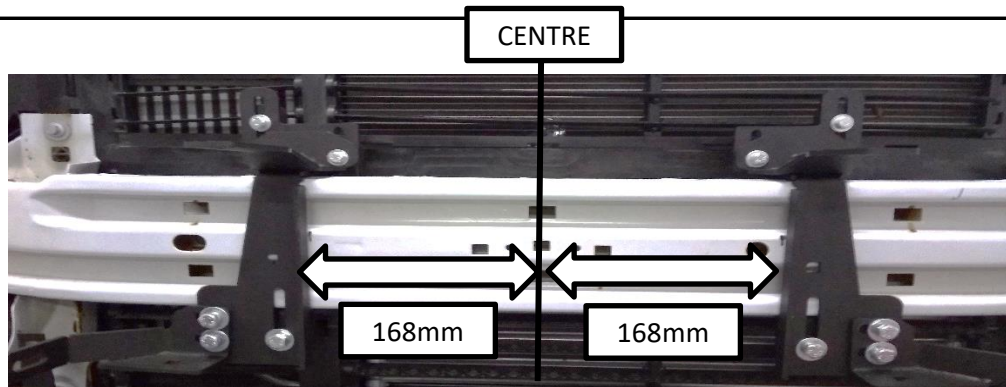

Remove the plastic covers above and below the support chassis.

Note

These plastics will need to be trimmed to allow the brackets to pass through them. This is shown on page 5.
