Additional equipment/Material needed for fitment :

Qty		Qty	

Precautions during fitment:

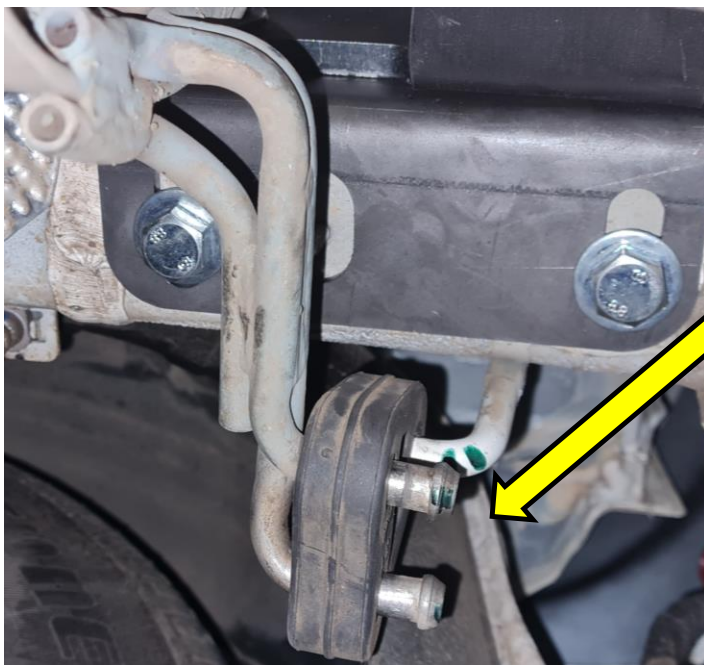

Do not forget to reattach the exhaust mounting.

Directions for use:

Fitment Instruction:

XUV300 Towbar

Visual / Graphic Illustration

Step #

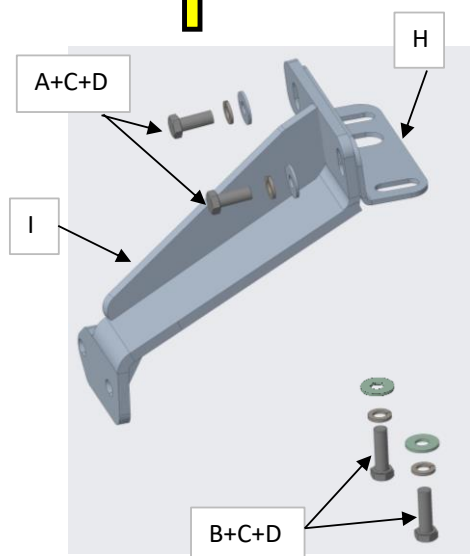

Description/Method

1

Drop the exhaust by unclipping the rubber mounting, this will make room to have the Towbar put into place.

Fitment Instruction: XUV300 Towbar

Visual / Graphic Illustration

Step

Description/Method

1

Have the brackets H and I slotted under the exhaust and loosely mounted to the chassis using the M12 fasteners as shown in FIG 1

2

Once the brackets are fitted you can now clip the rubber mount to secure the exhaust in place.

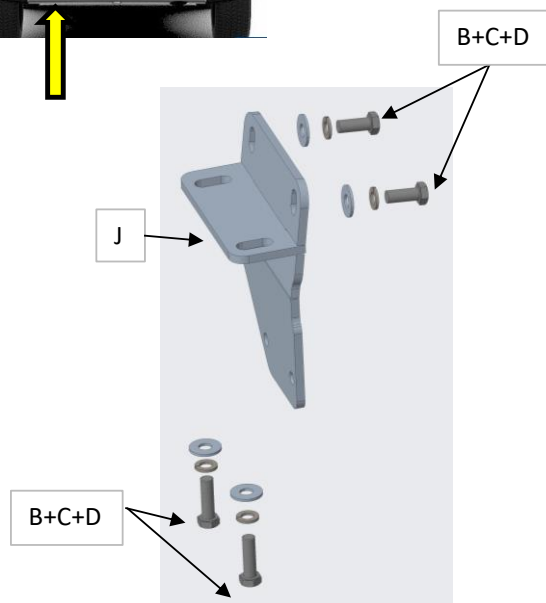

FIG 2

Step #

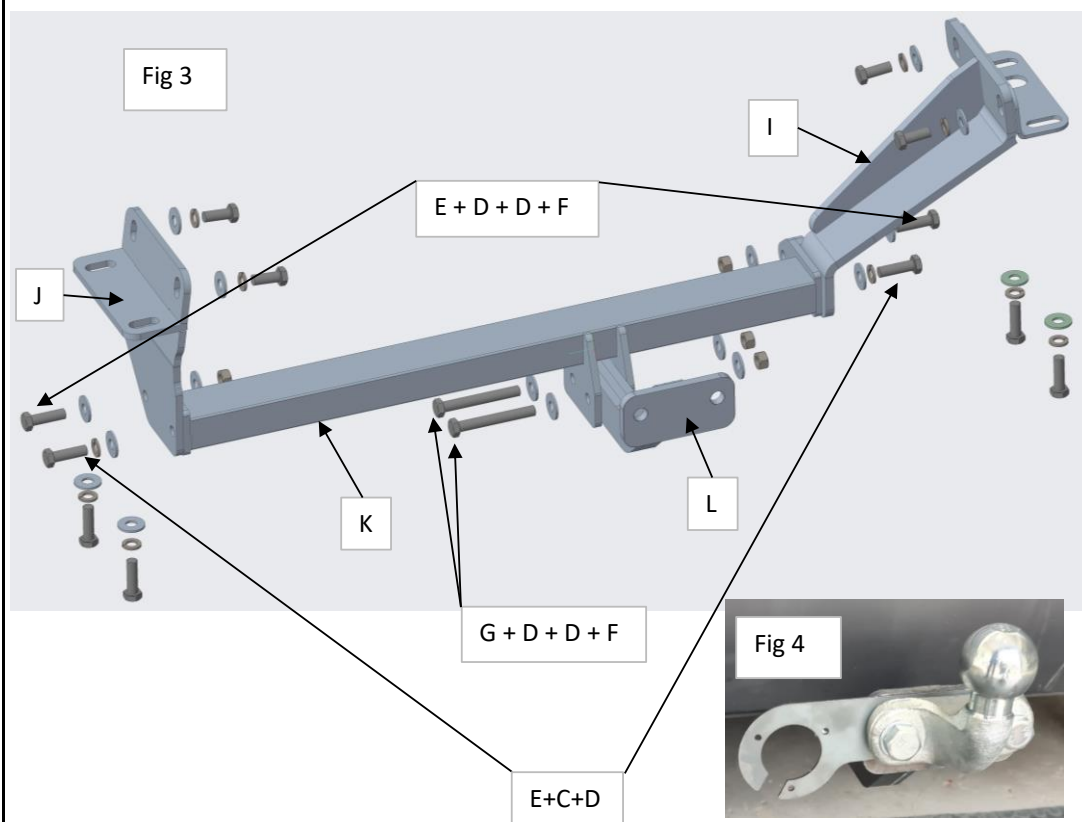

Description/Method

1

Loosley mount bracket J onto the chassis using the M12 fastners as shown in FIG 2.

Fitment Instruction: XUV300 Towbar

Visual / Graphic Illustration

Step

Description/Method

1

Loose mount K onto J and I using the M12 fastners shown in Fig 3

2

Loosely mount L to K using the M12 fastners shown in Fig3

3

Ensure that the towbar is straight and then Torque all the bolts accordingly.

4

Finally fit the towball and wiring harness plate with the M16 fastners provided and torque accordingly. Please see Wiring harness box for installation instructions.

Final step

Page 6 of 6

Make sure bar is centralised and tighten all fasteners to specified torque.
M8= 22Nm , M12= 73Nm , M16= 178Nm.
